

VARSHINI BEZAWADA

+91-9121264115 — varshini.bezawada2006@gmail.com

LinkedIn — GitHub — LeetCode — CodeChef

Professional Summary

Information Technology undergraduate with strong foundations in Artificial Intelligence, Full-Stack Development, and Data Structures & Algorithms. Experienced in building AI-powered applications using Python, Django, LangChain, LangGraph, Large Language Models (LLMs), and Retrieval-Augmented Generation (RAG).

Education

Shri Vishnu Engineering College for Women	2024 – Present
B.Tech in Information Technology	CGPA: 8.66/10
Sri Chaitanya Junior College	2022 – 2024
Intermediate (State Board)	91.8%
Nirmala High School	2021 – 2022
Secondary School Certificate (SSC)	95.83%

Technical Skills

Languages: Python, C, C++, Java

AI/ML: LLMs, RAG, Prompt Engineering, LangChain, LangGraph, FAISS, Groq API

Frameworks: Django, Bootstrap

Web: HTML, CSS, JavaScript

Databases: SQLite, MySQL

Developer Tools: Git, GitHub, VS Code

Core CS: Data Structures, Algorithms, OOP, DBMS, Operating Systems

Projects

InterviewMentor AI *Python, Django, LangChain, LLMs*

[GitHub](#)

- Built an AI-powered interview preparation platform using Python, Django, LangChain and LLMs.
- Implemented Retrieval-Augmented Generation (RAG), prompt engineering and resume-aware interview generation.
- Designed modular AI workflows for personalized feedback and scalable backend architecture.

IPL LangGraph Multi-Agent RAG

Python, LangGraph, LangChain

[GitHub](#)

- Developed a multi-agent RAG system using LangGraph for IPL analytical question answering.
- Implemented query routing, retrieval validation, multi-hop retrieval and answer synthesis.
- Reduced hallucinations through context-aware retrieval and structured AI workflows.

BookRent – Full Stack Book Rental Platform

Django, SQLite, Bootstrap

[GitHub](#)

- Developed a responsive full-stack web application for browsing, searching, listing, and renting books.
- Implemented authentication, role-based access control, CRUD operations, rental workflows, and image uploads.
- Designed optimized relational database models with responsive user interfaces.

Achievements

- Solved **200+** Data Structures and Algorithms problems across LeetCode, CodeChef, HackerRank, and Codeforces.
- Maintained a **100+ day** LeetCode coding streak.
- Developed AI-powered applications using LangChain, LangGraph, LLMs, and Retrieval-Augmented Generation (RAG).

Relevant Coursework

Data Structures & Algorithms Object-Oriented Programming DBMS Operating Systems Software Engineering

Leadership

Style & Slay Club Coordinator

- Coordinated student events, managed club activities, and demonstrated leadership, teamwork, communication, and organizational skills.
